

**MV1055 Physical Properties**

Applications : Cast film for solar PV film, etc.  
 Injection for cap liners, etc.  
 Foam sheet for shoes, sandals, etc.  
 Extrusion coating for packaging ,etc.  
 Hot melt adhesive  
 Cable coating

Characteristics : Excellent elasticity  
 Medium flow  
 Good low temperature resistances

Additives : No slip, No Antiblock

Process Temp. : 180-240 °C

Regulatory information

Complied with the U.S. F.D.A. 177.1350  
 Complied with the EU 10/2011  
 Complied with the RoHS Directive 2011/65/EU Annex II  
 [amended by Directive (EU) 2015/863]  
 # (IEC method) For plastics

Remarks : The values presented in this document are typical laboratory average, not to be construed as specification and may vary within moderate ranges. The application or accuracy of this information or suitable of our products cannot be guaranteed because the conditions of uses on the part of our users are beyond our control.
